

Chelsea Alanna Fakhira

chelsealanna95@gmail.com | [LinkedIn](#) | [GitHub](#)

Computer Science undergraduate at BINUS University focused on cloud computing, with hands-on experience building web applications using Laravel, MySQL, Flask, and Docker, and an interest in application development and IT infrastructure. Currently exploring skills in cloud computing, cyber security, and mobile development, with a background in machine learning and a co-authored research paper accepted at ICCSCI 2026.

EDUCATION

Bina Nusantara University | Bandung, West Java

Expected Sept 2028

- Bachelor's Degree in Computer Science | GPA: 3.85/4.00
- Relevant coursework: Data Structures, Algorithm Design and Analysis, Object Oriented Programming, Database Technology, Web Based Programming, Software Engineering, Computer Networks, Introduction to Cloud Computing, Introduction to Cloud Security

PUBLICATION

- "Cost Sensitive Ordinal Classification for Meningitis Risk Stratification Considering Clinical Aspects to Minimize False Negatives" Co-author. Accepted and published at ICCSCI 2026, presentation stage.

LEADERSHIP AND ORGANIZATIONAL EXPERIENCE

BNCC (Bina Nusantara Computer Club) | Human Resource Development Staff

Mar 2025 — Present

- Managed a soft skills improvement event with more than 20 activists as participants
- Revamped the bonding program with more frequent team-building sessions, boosting activist-staff participation by 100%

Bina Nusantara University | Duta Binusian Scholarship Awardee

Feb 2026 — June 2026

- Targeted academic coaching for 6 mentees facing academic difficulties
- Offering emotional support for 6 mentees having academic difficulties
- Designed simplified learning breakdowns to help struggling students grasp complex subjects

TechnoScape 2026 | Events and Logistics Co-Coordinator

Jan 2026 — May 2026

- Orchestrated pre-event rehearsals and created master briefings to ensure smooth logistical execution
- Authored comprehensive SOPs, job descriptions, and timelines to guarantee total committee alignment
- Collaborated with speakers to curate workshop topics and training materials aligned with TechnoScape's goals

TechDive 2025 | Publication and Registration Staff

Nov 2025 — Dec 2025

- Co-produced promotional content with a 4-person team
- Executed targeted social media campaigns, conceptualizing and writing promotional copy that guide users to the event registration

Bina Nusantara University | Freshmen Leader

July 2025 — Sept 2025

- Directly handling 9 freshmen to help them during their introduction to campus
- Facilitating a class of 47 freshmen cultural, academic, and social transition into university

SELECTED PROJECT

Tech McRae | Full-stack Developer

Self-Initiated Project [GitHub](#)

- Built an employee information system (Laravel 12, MySQL, Blade) with separate admin and employee workspaces, covering attendance tracking (clock-in/out, WFO/WFH) and a full leave request and approval workflow
- Implemented session-based authentication (login by email or employee ID) and custom role-based middleware to restrict admin routes
- Developed an admin dashboard with Chart.js attendance analytics and AJAX-driven updates, and containerized the app and MySQL database with Docker Compose for a reproducible one-command local setup

Meningitis Risk Assessment | Back-End Developer, ML Developer, and Researcher

Group Project [GitHub](#)

- Built a Flask web app with REST API endpoints for single-patient and batch CSV prediction (up to 500 rows), including server-side input validation, abnormal-value flagging, and downloadable results.
- Trained a cost-sensitive Random Forest with SMOTE balancing to classify risk as Low, Moderate, or High and integrated the Google AI Studio API for clinical insights with a rule-based fallback.

SKILLS

Programming & Web Programming: JavaScript, PHP, SQL/MySQL, C, C++, HTML/CSS, Laravel, Python, Flask

Data & Machine Learning: Python, pandas, scikit-learn, XGBoost, NumPy, Matplotlib, Seaborn, LightGBM, SMOTE, SHAP, data preprocessing, model evaluation, data visualization

Soft Skills: Communication, Collaboration, Initiative, Adaptability, Project Management, Strategic Planning, Team Building, Mentorship, Leadership

Design & Tools: Google Suite, Microsoft Office, Figma, Canva, Visual Studio Code, Docker, Git, GitHub

Languages: Bahasa Indonesia (Native), English (Advanced)
